FLOOR DEBATE

March 5, 2004

LB 479, 1065

SENATOR CUDABACK: Time.

SENATOR BOURNE: But what I'm saying is, I think that we need to allow these plants to expand and be "incented" to do so...

SENATOR CUDABACK: Time, Senator Bourne.

SENATOR BOURNE: ...in the future.

SENATOR CUDABACK: I'm sorry. Senator Erdman, on the Baker amendment.

SENATOR ERDMAN: Thank you, Mr. President, members of the Legislature. I'm going to give Senator Baker just a break, but I will have questions for him later, but I'll wait. I guess as I approach what it is that we're trying to accomplish here, the intent is probably laudable. However, I think the discussion that we had on this, or are having, was also had almost three years ago. And we made a conscious decision. We had an amendment offered to us to simply do...or to try and do what Senator Baker is offering, and we voted that down. Essentially, we set in motion the rules of the game that those who would want to play the game would have to follow. And so now we're back again after the fact, similar to the same discussion we had on General File, doing the same thing. And so I do have some questions for Senator Baker that I guess I would like to have clarification, if he would yield to a question.

SENATOR CUDABACK: Senator Baker, are you available? I'm sorry, Senator Baker, but are you available for a question from Senator Erdman?

SENATOR BAKER: Yes, I am.

SENATOR CUDABACK: Thank you.

SENATOR ERDMAN: Senator Baker, again, could you go through...you said that LB 1065 intends to fund four, I think your word was "legitimate," plants. What four plants are those?
